P. T. A. Assures Grade School of Christmas Treat

Business Men Back Expense For Party at School On December 20

The pupils of the Antioch grade school will get their treat regardless of the fact that the village board abandoned the plan this year. The Parent-Teacher association has taken the matter up and this week William Horton announced that there would be a big Christmas party Friday, Dec. 20 with gift sacks for all the children in the school. The parties with separate programs will be held in each home room. During the afternoon Santa Claus is expected to drop by and leave the treats which will consist of candy, apples, oranges and nuts. Business men and members of local service organizations have offered generous donations for the expense of the treat. Sixty-five persons attended the book fair program of the P. T. A. Monday evening. Mrs. W. McSwain, of Lake Zurich, and Miss Flaherty spoke. Hans Von Holwede played for the group singing.

Safety Campaign for All School Children Planned

An intensive safety campaign through which grade school and high school students in Antioch will be given instruction through literature and lectures is to be conducted soon under the direction of the Midwest Association of Sheriffs and Police Officers. Antioch merchants contributed \$60 and the Lions club \$25 through which the campaign will be financed. Two books on safety will be given each school child. One book will deal with safety on the highways and the other on safety in the home. A series of eight lectures and demonstrations will be given by state safety experts and at the close each child will be quizzed on what he has learned. The training will supplement that given yearly by the schools to their patrols and pupils in general. It is expected that when the campaign is finished each child will be better prepared to go through life avoiding accidents that he might otherwise fall a victim to.

Sees Mild Weather Ahead For Skunks Now Running

There will be mild weather this weekend. Fred Peterson, head of the police force knows because as he says "the skunks are running." Fred is talking about the little black and white animals when he says that and is not casting any aspersions politically, socially or otherwise. But what he means is that after receiving a hurried call home Tuesday he was relieved to find that everything was all right except the basement and that had a skunk in it. There was no mistaking that fact from the strong odor. A skunk, or maybe a nest of them, has taken up residence in the vicinity of the grade school much to the dismay of those living in that region.

Lions Club Elects Officers and Gives To Community Funds

The Lions club elected officers, made substantial financial contributions to three community projects and received a report on plans to provide the Rescue squad a new service truck when they met Monday evening at Pregener's resort. Roman B. Vos will head the club as its new president and he and other officers will be installed at the annual ladies night meeting at Pasadena Gardens, Jan. 6. The Rescue Squad fund committee met with the Rescue squad last week and worked out a financial arrangement for a required piece of equipment which will serve as an ambulance and for rescue work, and on which bids will be asked. The truck will be modeled on the lines of those used in Detroit which are considered the best. The committee announced recent donations from the Antioch Woman's club, Mr. and Mrs. Robert Heywood, William Krautkramer, and Charles Meyer. The club gave \$100 as its share in the Cigarettes for Veterans campaign which the Veterans of Foreign Wars is taking the leadership assisted by the service club and church groups. Gifts to Yanks Earn Free Dance Admission

Couples or individuals attending the American Legion dance Saturday night and presenting a Christmas package for the "Yanks Who Gave," will be admitted free, Ed Jahneke, chairman of the drive announced today. With but four days left in which contributions may be made to the fund and gifts made, Jahneke urged Antioch residents to attend to the matter at once. The gifts may be left with local merchants and money may be placed in anyone of 17 cans placed about the village business places. All gifts must be in by Monday and on that day Jahneke will take them to Chicago for distribution. Perhaps many of them will be sent to the Veterans Administration hospital at Downey, but all are pooled in the Chicago area for distribution in the same region. Jahneke reminded the people that gifts must range between \$1 and \$5 in value, and must not be of metal or sharp permitting of injury to patients. Where names are included, there will be an acknowledgment of the gift.

Post Office Prepares for Christmas Rush and Asks Patrons to Clear Approaches to Mail Boxes

With the approach of winter season it is necessary to direct attention of rural patrons to the necessity of keeping the approaches to their mail boxes free of all obstructions, especially snow. Postmaster Roy I. Kufalk announced. Since rural carriers are not required to leave their automobiles to serve mail boxes, snow blocking the approaches to the mail boxes should be promptly removed. Not having been removed, service may be temporarily stopped. Usually rural carriers do leave their cars to serve such boxes so as not to inconvenience the owners. Patrons should reciprocate and remove snow from in front of their boxes. As an accommodation to his patrons and again not required of him, a rural carrier often picks up coins from patron's boxes to pay for postage to be attached to mail deposited in rural boxes. During the winter months many coins are lost as numb fingers drop them in the snow before the carrier can safely place the coins in his letter pouch. Rural patrons should purchase stamps and attach them to these mails before placing them in the mail box. Stamps may be had in small convenient books of twelve or twenty-four of three cent denomination as well as in sheet form. With the Christmas mails increasing over the volume of the average day, it is requested that patrons attach postage to all mails and relieve the extra burden at least partially of these rural carriers. On Christmas Day the postoffice will not be open to the public, but as usual letter mails will be dispatched. All other holidays during the year the Antioch Postoffice opens from 5:15 A. M. to 9:00 A. M. and the office dispatches mails every evening during the week including Sundays.

The dance on the 28th will be the first public affair to help raise money for this improvement.

Free Enterprise at Work

Those who forecast that the virtual elimination of price control and a return to the free market would result in immediate and disastrous inflation, were as badly fooled as will be those who think that prices will return to "normal" overnight.

What actually happened was that some prices rose in the first flurry after decontrol, while some turned downward. The idea that the public would pay any price for anything was proven baseless. As Time put it, "More and more sales clerks heard two long forgotten phrases: 'How much is it?' and 'No, thanks.'" And in the last week of October, according to the Bureau of Labor Statistics, food prices declined as much as 4 per cent.

On top of that, there has been a very noticeable improvement in the supply of both manufactured goods and farm products. That simply means that supplies are flowing through legitimate channels—and the black market is expiring.

On both the producing and retailing levels, the normal, healthy processes of competition are once more in evidence—and these processes are the best guarantee we have of a progressive, stable economy. Chain stores and independent stores are going out for the customer's business. They are keeping prices at the lowest level consistent with the times. The free enterprise system is working—as it has always worked when freed of government-imposed fetters.

Ready To Go

Is it true that private utilities, using their own money instead of tax money, would develop the nation's hydroelectric resources if they were permitted to, and if the government didn't monopolize the business? An answer to that very important question was recently given in Georgia.

The government has planned a \$45,000,000 power development project on the Savannah River. Now, due to some curtailment in funds, it is doubtful if the government can go ahead with the work. So the Savannah River Electric Company, a private utility which is part of a large affiliated system, has petitioned the Federal

Power Commission for a license to take over the job, announcing that it is prepared to start at once. In its application, a spokesman said that the utility "cannot sit still in the face of the tremendous demand for electricity already existing in its territory, and in the face of a constantly increasing demand which will take place as the area develops in the coming years."

In short, a private company is ready to put up \$45,000,000 and to proceed with this big project without delay. And, once the project was in operation, the company would pay an estimated \$450,000 a year in county, school district and state ad valorem taxes, plus \$450,000 more in Federal and state income taxes. If the Federal government built the project, by contrast, the money of all people would be used—and it would be exempt from taxes assessed against private citizens and business.

What is true of this Georgia utility is true of private utilities in every section of the country. They are ready to go ahead with power development on any scale present and future demand justifies—and to create enormous new taxable assets. All that stands in the way is the political drive to socialize one of our most progressive industries—at a cost of billions to the taxpayers.

The Real Lesson

A British commentator on American affairs recently said that the United States was moving to the "right," politically speaking, while the rest of the world was tending toward the "left."

A more accurate view would be to say that the United States seems to be moving back to its philosophy of maximum freedom and opportunity for all—while much of the rest of the world is, willingly or not, being subjected to the defeatist philosophy of the super-state with its regimented, slavish peoples.

The recent elections were headlined as a victory for the Republican party, its first of national significance since it became the minority party in 1932. Going deeper than partisanship, however, it is clear that the election, for the most part, indicated a strong, cohesive demand by the American people for sound Constitutional government free of the "isms" which have so long afflicted us. The Democrats, as well as the Republicans, who won seats in Congress and State governorships, generally typified this point of view.

The wisdom of the American voter is traditional, and he exhibits it again and again. We, as a people, accepted the regimentation of war in the belief it was part of the price of victory. But we didn't surrender our liberties—we simply "loaned" some of them for the duration. With the war over and the victory won, the people demand government, state and national, which will conform to our established free way of life. That is the real lesson of the elections.

Chicago and Northern Illinois

...Center of an
Agricultural Empire

It was inevitable that Chicago should become a world food center. Here in Northern Illinois a billion dollars worth of food products are processed annually. Here, a hundred thousand people are employed in this industry alone.

Forty per cent of America's farm output, in dollar value, is produced in—or within overnight ride of—Northern Illinois. Thus Chicago has become the largest packing and food storage center, as well as the largest

The Chicago Stockyards is the largest single live animal market in the world.

single live animal market in the world. The products of the fertile upper Mississippi prairies and livestock from the western ranges gravitate naturally to the nation's transportation center, creating here the focal point of food processing—one of America's most important and largest industries.

Chicago's preeminence in this industry has placed it first in the production of fresh beef, mutton, lamb, pork, cooked hams, fresh and dried sausage, lard and oleomargarine.

Because the Middle West is the nation's granary Chicago and Northern Illinois is a huge grain distributing center. The Chicago Board of Trade handles 86 per cent of the entire nation's trading in wheat, corn, oats, rye, barley and soy bean futures—the largest market of its kind in the world.

With its ideal economic balance among industries, trades, and agriculture, this area is indeed the heart of the world's richest inland empire.

The same natural advantages that have contributed to its importance in food processing have helped to build its leadership in industry, transportation, and marketing. No other center provides such easy access to as many other large markets. No other distributing point offers such economy of time and distance in serving the nation—and the entire world.

These are some of the reasons why this area is well launched upon another period of industrial progress. For industries contemplating location or expansion, the unequalled advantages of this diversified area deserve thorough investigation.

Industries located in this area have these outstanding advantages: Railroad Center of the United States • World Airport • Inland Waterways • Geographical Center of U. S. Population • Great Financial Center • The "Great Central Market" • Food Producing and Processing Center • Leader in Iron and Steel Manufacturing • Good Labor Relations Record • 2,500,000 Kilowatts of Power • Tremendous Coal Reserves • Good Government • Good Living • Good Services for Tax Dollars.

School Revamping Discussed at P-T Meet in Libertyville

Much is still to be done in reorganization of the public school system in Illinois and this may be accomplished by forthcoming legislation, Supt. W. C. Petty told Lake County Council of Parents and Teachers at the Diet, 62 meeting in Libertyville High school, Thursday, Dec. 5.

This was likewise revealed in a panel discussion on "Reorganization" conducted by the Lake County Survey committee of which Mrs. Douglas Getchell is chairman.

Mrs. Bert Stiehr, secretary, explained that the state legislature is passing House Bill 406 authorizing the setting up of the survey committee composed of nine members and providing a period of two years in which to make the survey. It serves in an advisory capacity and as an aid and help on school problems.

Mrs. J. Juron, vice chairman, stressed the point that if the school boards cannot solve their problems or don't make an effort to do so, the state will do it for them, all of which she thought was not an ideal arrangement. Now if difficulties arise recommendations are made and voted on by the people.

Mrs. Getchell summed the situation up with the statement that "the committee is really willing and able to give help whenever called upon."

Supt. Petty outlined the Lake County school setup. "There are over 100 school districts," he said. "With eight consolidations of 23 school districts there are still 95 left. Four of these are one-room units. There are 11 high school units with 15 administrative units."

Mrs. Robert Nelson, Fox Lake, president of the organization, was in charge of the meeting. Community singing of Christmas songs was directed by John Hodges.

A nominating committee of three, Mrs. J. P. Callanan, Mrs. R. Robbins and Supt. Bert Williams, was chosen to prepare the slate of nominees for office to be balloted upon at the March meeting.

Library Booknotes

Two books, one of world wide importance, the other of local interest, have been added to the library recently. They are "Hiroshima" and "Battle for Chicago."

John Hersey's "Hiroshima" was first published in The New Yorker, which devoted an entire issue to it. The story of five Japanese and a German priest who survived the holocaust of the atomic bomb is described in a matter of fact reporter style that has frightening clarity.

"Battle for Chicago," by Wayne Andrews, begins with the city's frontier days when it was a paradise for shrewd real estate operators. With the Civil War and after, came the great fortunes, Swift and Armour, Field, McCormick, together with social unrest that culminated in the Haymarket massacre and the Pullman strike. The World's Fairs, the blue sky manipulations of Insull, gangsters, the feud between the Field and Medill-McCormick families are described up to the present day with its newspaper war.

Fantastic Boom Now Stirring Up Berlin

Citizens Ransack the Stores for Luxury Goods.

BERLIN.—This capital is the grotesque stage-setting for one of the biggest international merchandise marts in the world.

Allied citizens—civilian and military—are ransacking the stores in Berlin in search of luxury goods.

Silver, jewels, fine china, cut glass and oriental rugs are among the staple items on this fantastic market. The innumerable antique shops, jewelry stores and art dealers are enjoying a dizzy boom. And nobody knows how long it will last.

The average antique shop looks like a bargain basement with a cluster of excited Germans trying to sell and a group of Americans, British, French or Russians looking for something to buy.

Because of prevailing high prices most Germans have used up their savings and now are selling prized possessions to get funds which will enable them to pay black market prices for food, clothing, coal and other necessities.

Many of the articles are identifiable as German soldier loot and some of them may be accidentally drifting back to France or Russia in the suitcases of personnel stationed here.

Prices are anywhere from 10 to 30 times as high as in peacetime—but for foreigners here with cigarettes to spare the occupation mark is cheap.

American women, including newly arrived wives, are spending much of their spare time rummaging through shops to find house furnishings. Those with luck and good taste have found rare items which would bring a high price anywhere.

Comparatively cheap things such as kitchen utensils, hardware, curtains or napkins are the hardest to find. There is a shortage of all essentials but Berlin is full of luxuries.

"WHAT!—NO GOLDEN EGG?"

Fact

and

Scripture

As the Christmas Season comes near there is the rising tide of good will toward men. It is a spirit that originates from on high.

"For God so loved the world that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life."

John 3:16

And nineteen hundred years ago God did manifest His regard and interest toward us in sending us a Saviour.

There were shepherds who heard and witnessed the announcement by the angel which said, "Fear not: for behold, I bring you good tidings of great joy, which shall be to all people. For unto you is born this day in the city of David a Saviour, which is Christ the Lord."

And other angels joined in saying, "Glory to God in the highest, and on earth peace, good will toward men."

Luke 2:10-14
Emanuel Thiele

"O.K., boys, meet you at the new apartment. We'll take care of the FOX DE LUXE BEER!" Can't blame 'em for being so careful, because FOX DE LUXE Extra Pale, brewed with imported Bohemian hops is a rare taste treat!

LAKE VILLA

The Woman's Society of Christian Service will meet Wednesday afternoon, Dec. 18 with Mrs. D. S. Boyer at her home on Dering Lane for the installation of officers and other business. A dessert luncheon at 1:30 and a social hour follows the business meeting at 2 o'clock. Visitors are welcome. This will also be the Christmas party with exchange of gifts.

The Sunday school will present its Christmas program on Sunday evening, Dec. 22 at 7:30, so plan to attend.

You can help Christmas to be bright and cheery for one of the two hundred needy children at the Lake Bluff Orphanage by bringing a white wrapped gift of toys, clothing, etc., to place at the Christmas tree at the church and it will be delivered to the Orphanage in time for Christmas.

The choir girls enjoyed a pot luck supper and a party at the parsonage on Tuesday evening.

Mr. and Mrs. Dunbar, of Petite Lake Highwood, have as guests their daughter and children who arrived from Boston last week, Wednesday.

The members of Cedar Lake Camp Royal Neighbors will meet Tuesday evening, Dec. 17, at the hall for the annual election of officers following pot luck supper at 7 o'clock. This will also be the annual Christmas party with exchange of gifts.

The boys and girls at the Grade school are preparing a pageant play called "Christmas is a Miracle" to be given at the school gym on Dec. 20, at 8 p. m. Everyone welcome. This week the assembly program, given regularly every Wednesday morning at the school was put on by Mrs. DeVries' room. All pupils sang "The Star Spangled Banner" and gave the flag salute. The third grade read a story about "Oscar, the Trained Seal," and other pupils said poems from memory which they had been learning in their classes. The program ended with a song "Jolly Old St. Nicholas."

The first and second grades of the school wrote letters to Santa Claus last Friday and Billy Ladewig wanted so many things that Bonnie Monnier was afraid there wouldn't be room for anything else in Santa's pack, so Joel Armstrong suggested that Billy cut down a little so someone else could have something too.

Nancy Wetterberg and Neil Boss are back at school again minus their tonsils and feeling fine. Neil said, "Doc knows how—he doesn't hurt, it was fun, so all the others are almost wishing they could do the same."

The small folks enjoy the poem books—they copy the poems, memorize them and illustrate them with their own drawings, this week they are working on "A Visit from St.

Nicholas."

The children are glad to have Johanna Faust with them until Christmas. Her family moved to Mr. Lehmann's farm.

Ardes Beach won the first grade reading contest and Joel Armstrong was second.

The children of primary grades made cute Santas with cotton and Santa faces. Clarence Hansen brought enough cotton and Santa face stickers so everyone could make a Santa to put on their tree at home.

Mr. and Mrs. Fred W. Kirk, who have lived at Crooked Lake Oaks for a number of years, left this week to spend the winter in Florida.

Mr. and Mrs. Joe Mack spent Saturday in Chicago.

Mr. Frank Hamlin entered St. Therese hospital as a surgical patient last Friday, and is recovering nicely.

Mrs. Marie Hamlin was called to Chicago on Sunday by the death of her aunt and remained in the city with relatives until after the funeral on Tuesday.

Mrs. Ella Talbot has gone to Waukegan to spend the next few months with her daughter, Mrs. Vera Phillips.

The Saturday evening club met at the Leo Barnstable home last Saturday and prizes were awarded to Mrs. Kasten, of Paris, Wis.; Mr. and Mrs. Keisler, of Antioch; Will Fish, of Wauconda; Arthur Nelson, of Lake Villa and Mrs. Henry Cable also of Lake Villa.

Clarence Blumenschein, whose hand was injured at the American Can Co.,

last week, was able to leave the hospital the first of the week.

Mrs. Jake Fish and Mrs. Sheridan Burnette were Kenosha shoppers last Saturday.

Mr. and Mrs. William Walker's home was the scene of a pleasant family gathering last Sunday when relatives from Rockford, Oak Forest, Chicago, Waukegan and Libertyville came for a surprise shower for the eldest daughter, Margaret, whose wedding will take place in the near future.

Mrs. Edna Jean Botts spent Sunday with her husband's family at Marengo.

WHAT'S HOLDING HER TOGETHER, MISTER . . . FAITH?

Aging cars tend to get a bit loose in the joints. A general tightening-up prevents serious chassis and body troubles later on . . . makes the car smooth, quiet, peppy. Drive your car in for our famous Chrysler-Plymouth tightening-up treatment, done in the approved factory manner. Our specially trained mechanics will give you back a car that acts and sounds like a two-year-old!

Here's what they'll do: (1) Check spring bolts and shackles—tighten if necessary. (2) Check shock absorbers. (3) Check body bolts. (4) Adjust door bumpers and locks. (5) Check rear-axle U-bolts. (6) Tighten battery hold-down

bolts. (7) Tighten rear-axle carrier bolts. (8) Examine U-joint bolts. (9) Check engine mountings. (10) Tighten front and rear bumper support bolts. (11) Check front wheel bearing adjustment. (12) Check exhaust line system. (13) Check sway bars. (14) Check steering mounting. (15) Check dash panel instruments.

Invisible Soap Tray

An inexpensive little gadget which saves both soap and work is called the "Invisible Soap Tray." Actually it is just a little disc of aluminum the size of a half dollar with three raised bumps on one side. Moisten a bar of soap, scrape a little into the concave side of the disc and press disc and bar firmly together. Presto—the soap bar has tiny feet to rest on, thus preventing a messy soap dish or smeared porcelain, and saving soap at the same time since it does not rest in a puddle of water to melt away.

Behind Your Bonds
Lies the Might of America**CIGARETTES**

From the day that sweeter, brighter tobacco, adaptable to cigarettes, was discovered in Caswell County in 1852 and Washington Duke installed a Bonsack machine in his Winston-Salem, N. C., plant for making them, the cigarette business has expanded tremendously. A half billion dollar industry when World War II opened, it will continue to enrich the Nation and add resources to guarantee Savings Bonds.

New Synthetic Fabric

Venyon, a new synthetic fabric made from vinyl resin, can now be obtained in sewing thread, filter cloth, and pressed felts. To date it is the only synthetic fiber which has the same tensile strength when wet or dry. It is water-resistant, non-inflammable, mildew proof, odorless and non-toxic.
